1. Executive Summary

7.4 / 10 Overall Opportunity Score	60-110 Active STR Listings (Est.)	50% Avg Occupancy Rate	84% Web Void Rate
--	---	----------------------------------	-----------------------------

Tellico Plains, TN is the Tennessee gateway to the Cherohala Skyway — one of the most scenic and motorcyclist-celebrated drives in North America — and one of the most genuinely underdiscovered STR markets in our entire 34-market Southeast analysis. The Cherohala Skyway's 500,000+ annual vehicle crossings bring a continuous stream of motorcycle tourists, scenic drivers, and Cherokee National Forest visitors past Tellico Plains' doorstep, yet the town's individual STR hosts remain virtually invisible to this traffic. The Tellico River provides world-class trout fishing and kayaking, and the surrounding Cherokee National Forest offers 640,000+ acres of backcountry access — a natural asset profile that rivals markets with far greater marketing sophistication.

The single biggest visibility gap in this market: complete failure to intercept the 500,000+ annual Cherohala Skyway visitors with any form of direct marketing or web presence — with Tellico Plains as the western gateway to one of America's most celebrated scenic byways, an estimated 84% of individual hosts have no website or Google Business Profile that would allow Skyway travelers to discover and book a multi-night stay.

Key demand driver: Cherohala Skyway: 500,000+ vehicle crossings/yr; Tellico River: Trout Unlimited top-10 SE fishery

Bottom line: The properties are exceptional. The hosting is excellent. The marketing is almost entirely absent. That gap is your opportunity — and it is exactly what Crest & Cove Creative was built to close.

2. Market Overview & Regional Character

Quick Facts at a Glance

Drive Time	1 hr from Knoxville · 1.5 hrs from Chattanooga · 1 hr from Robbinsville NC	Peak Months	May–Oct (Skyway + motorcycle season), Sept–Nov (peak)

County Population	46,000	YoY Revenue Growth	+8%

🔍 Seasonal Intelligence

Motorcycle touring season on the Cherohala Skyway runs May through October, with September–October representing the peak. Riders typically book 2–4 night stays, spend heavily on local dining, and have the highest return-visit rate of any segment in the Monroe County market.

Geography & Access

Tellico Plains is a small community in Monroe County at approximately 900 feet on TN-165/Cherohala Skyway at the western end. The Tellico River runs through town. Drive times: Knoxville (1 hour), Chattanooga (1:30), Robbinsville NC (1 hour via Cherohala). The Cherokee National Forest surrounds the area, with the Bald River Gorge Wilderness 10 miles east.

Core Tourism Drivers

- **Cherohala Skyway:** One of only two roads in the U.S. designated a National Scenic Byway and an All-American Road simultaneously, the Cherohala draws 500,000+ vehicle crossings annually — dominated by motorcycle touring, with peak season May-October.
- **Tellico River:** A designated Tennessee Scenic River with world-class brown and rainbow trout fishing recognized by Trout Unlimited, the Tellico River draws fly fishing tourists from across the Southeast for multi-day fishing trips.
- **Cherokee National Forest:** 640,000+ acres of national forest land accessible from Tellico Plains, including the Bald River Gorge Wilderness, Big Frog Wilderness, and extensive trail networks for hiking, mountain biking, and horseback riding.
- **Bald River Falls:** One of Tennessee's most photographed waterfalls — a roadside waterfall with easy access — generates consistent photography tourism and social sharing that drives discovery of the broader Tellico Plains area.
- **Joyce Kilmer-Slickrock Wilderness Access:** The Joyce Kilmer Memorial Forest (old-growth trees up to 400 years old) is 1 hour east via Cherohala, creating a rare old-growth forest tourism draw that extends Tellico Plains' appeal to a distinctive nature tourism segment.

Primary Visitor Types

Motorcycle touring enthusiasts represent the dominant segment — riders traversing the Cherohala Skyway who need multi-night accommodations for 2-4 night touring loops. Fly fishing guests on the Tellico River represent a premium, high-spend mid-week booking segment. Hikers and backpackers accessing the Cherokee National Forest and Joyce Kilmer wilderness areas.

3. Current STR Landscape & Performance Trends

Market Performance Benchmarks

Metric	Value	What It Means
Active Listings (Est.)	60-110	Individually-managed + PMC combined
Average Daily Rate	\$145	Individually-managed host median
Average Occupancy	50%	Market-wide annual average
YoY Revenue Growth	+8%	Year-over-year listing revenue change
Platform Split	86% Airbnb · 11% VRBO · 3% direct	Where guests are currently booking
Listings w/ Direct Website	~16%	An alarming minority
Listings Analyzed (Scouting)	10+	Deep-dive individually-managed focus
Annual Revenue Range	\$17,000-\$32,000	Individual host spread

Market Size & Active Inventory

The Tellico Plains, TN corridor supports an estimated **60-110 active short-term rental listings** across Airbnb, VRBO, Booking.com, and direct booking channels. Our scouting analysis focused specifically on individually-managed hosts visible on Airbnb's deeper search pages, where properties with strong guest satisfaction but weak marketing infrastructure tend to cluster.

Platform distribution: **86% Airbnb · 11% VRBO · 3% direct**. That concentration matters — it signals that most hosts have no multi-channel strategy, and that any single algorithm change could devastate their revenue overnight.

Nightly Rate & Revenue Benchmarks

The ADR (Average Daily Rate) in this market averages **\$145** for individually-managed properties. The full range is **\$115-\$190**, with premium properties — those with strong branding, photography, and direct booking channels — commanding rates at the high end or above. Annual revenue for individually-

managed hosts ranges from **\$17,000–\$32,000**, and the spread is almost entirely explained by marketing investment, not property quality.

The key insight: properties at the lower end of this range are not necessarily inferior. Many are excellent, well-maintained homes with strong guest satisfaction scores that simply lack the marketing infrastructure to command premium rates and maintain high occupancy.

The Velocity Paradox

Our analysis uncovered a recurring pattern: hosts with Superhost or Guest Favorite badges who nonetheless have critically low booking velocity. In the Tellico Plains, TN dataset, we identified multiple hosts showing classic velocity crisis patterns — established hosts with 5+ years on Airbnb, quality badges, yet fewer than 15-20 reviews per year. For context, a Monroe County Cherohala-corridor 5-year host has been hosting for 5 years with only 28 total reviews (5.6/year average) despite holding quality badges. This is a **marketing gap, not a quality gap**.

Market Intelligence

The Cherohala Skyway is one of only two roads in the U.S. simultaneously designated a National Scenic Byway AND an All-American Road — a distinction that generates consistent national motorcycle media coverage. Zero Tellico Plains hosts reference this designation in their listing copy or Google Business Profile.

Sub-Market Differentiators

The Tellico Plains, TN market has several distinct sub-market pockets that create niche positioning opportunities for hosts. Understanding which niche your property naturally fits — and marketing accordingly — is one of the highest-leverage optimizations available.

4. What Most Hosts Are Lacking (The Honest Truth)

We believe in being direct with the hosts we work with. The data we collected across this market tells a consistent story: the properties are genuinely excellent. The marketing is not. Here is what we found.

The Web Void

Of the individually-managed hosts we analyzed, the digital presence numbers are stark: approximately **84% have no direct booking website**. Nearly 100% have no claimed Google Business Profile. Nearly 100% have no property-specific Instagram account. The majority are listed on only one booking platform — Airbnb.

When a potential guest searches Google for "**Tellico Plains, TN cabin rental**" or "**Tellico Plains, TN vacation home**," these hosts are invisible. They do not appear in Google search results, Google Maps, or Google Vacation Rentals. Their entire business depends on Airbnb's algorithm deciding to show their listing on a specific day. That is not a marketing strategy. That is a lottery ticket.

Generic Titles & Amenity-Dump Descriptions

The listing title audit revealed that the majority of individual host listings in this market have no recognizable property name. Hosts default to keyword-stuffed descriptions that read like search queries rather than destinations.

A listing title is the single most visible piece of copy in your entire STR business. A generic title means a forgettable property. A named property with a distinctive identity means a recommendation-worthy destination that guests share without being asked.

Amateur Photography & No Video

An estimated 95% of individual host listings in this market rely on phone-captured photography with no professional lighting, staging, or composition. In a market where your listing appears alongside hundreds of competitors, the hero image is your storefront. **Professional HDR photography increases listing views by 25–40%**. Cinematic video walkthroughs generate **85% higher engagement**. Zero hosts in our dataset have professional video content on their listings.

Platform Dependency & OTA Fee Leakage

Every host in our analysis is paying Airbnb's **15.5% service fee** on every booking. For a host generating \$32,000 in annual revenue, that is **\$4,960 per year** paid to Airbnb for the privilege of being buried in search results. Even shifting **20% of bookings to a direct channel** saves **\$527–\$992 per year** for a typical Tellico Plains, TN host.

Revenue Intelligence

Bald River Falls — a roadside waterfall visible from TN-165 — generates 40,000+ annual visits and is one of the most-photographed locations in Monroe County. Properties within 15 minutes regularly appear

in waterfall travel content, yet no local host actively markets this proximity.

Velocity Crisis Despite Quality Badges

Perhaps the most revealing pattern in our data: multiple hosts hold Superhost or Guest Favorite status with dramatically low booking velocity. In Tellico Plains, TN, a Monroe County Cherohala-corridor 5-year host has maintained quality badges for 5 years with an average of just 5.6 reviews per year. The guests who do stay leave excellent reviews. The problem is not the property — it is that potential guests cannot find it.

5. What Successful Hosts Are Doing (And What You Should Be Doing)

The difference between an \$18,000/year property and a \$50,000+/year property in the Tellico Plains & Cherohala Skyway is rarely the property itself. It is the marketing infrastructure around it. Here is what the highest-performing hosts in this market — and successful operators across the Southeast — are doing differently.

15–30%

Avg Revenue Increase

+25–40%

View Lift (90 Days)

+85%

Video Engagement Lift

+15–25%

Multi-Platform Booking Lift

Professional Visuals That Stop the Scroll

Professional HDR photography increases listing views by 25–40% within the first 30 days. Properties with cinematic video walkthroughs see **85% higher engagement** and dramatically longer time-on-listing, which signals to Airbnb's algorithm that your property deserves higher search placement.

The investment in professional visuals pays for itself within the first month of improved performance. A single additional booking at market ADR rates covers the cost of a professional photo session several times over.

SEO & Google Vacation Rentals Strategy

Google Vacation Rentals (GVR) is the single largest untapped discovery channel in this market. When a potential guest searches for "cabin rentals Tellico Plains, TN" on Google, GVR listings appear at the top of the results page — above even Airbnb's organic results. Zero individually-managed hosts in our Tellico Plains, TN dataset appear in GVR.

A claimed and optimized Google Business Profile, combined with local citation building across tourism directories and travel aggregators, creates a permanent, compounding discovery channel that works 24/7 without paying per-click or per-booking fees.

Direct Booking Infrastructure

A purpose-built direct booking website does three things simultaneously: captures repeat guests at zero commission, builds an email list of qualified prospects, and creates a brandable destination guests can share. In Tellico Plains, TN, where the majority of individually-managed hosts have no direct booking site, the **first-mover advantage is significant**. Even a modest 20% shift to direct bookings saves **\$527-\$992 per year**.

Named Property Branding & Emotional Storytelling

The most bookable properties in every STR market share one trait: they have a name and a story. Guests do not dream about booking Listing #48211676. They dream about staying at a place that evokes something — a riverfront retreat, a ridgetop haven, a woodland escape.

In Tellico Plains, TN, properties have extraordinary storytelling potential — distinctive landscapes, local heritage, and natural character that are going completely untapped. A named property with a compelling origin story becomes a recommendation engine that works through every channel simultaneously.

Pricing Intelligence & Multi-Platform Optimization

The top-performing STR operators in this market use dynamic pricing tools and are listed across multiple platforms simultaneously. Multi-platform presence increases total booking volume by **15-25%** and reduces dependency on any single algorithm.

Occupancy in this market averages **50%** market-wide — but optimized hosts with proper pricing calendars and multi-channel presence routinely outperform that baseline by 15-20 percentage points.

6. How Crest & Cove Creative Solves These Exact Challenges
